

VIPERS® Single-use cleanroom mop VMP50/VMSP50

- High-quality disposable cleanroom mop made of microfibre
- Ultrasonically sealed edges and seams for improved structure and durability in frequent use
- Very high absorption capacity to hold a high amount of liquid during cleaning and to clean large areas - up to 743% of its own weight and thus over 5684ml/m²
- Increased cleaning performance due to integrated cleaning strips
- Very low particle emission of the material in the application
- Ideal for cleaning in critical areas
- Dirt and small particles remain in the fibre due to the structure
- Effective material structure also suitable for uneven surfaces
- Compatible with all common disinfectants
- ISO11137 validated sterile version available
- Proven sterile shelf life of 3 years

Article Data

Item no.	Compatibility	Version
490700	ISO class 4 / GMP C/D	VMP50 non-sterile
490701	ISO class 4 / GMP A	VMSP50 sterile

Technical Details

Specifications	
Material	Polyester Microfiber
Colour	White
Weight	50 g (± 5%) per Mop
Size	40 x 12.5 cm ± 5 mm
Absorbency	> 400%, max. 743% (5684ml/m ²)
LPC* > 0.5 µm <small>*Liquid Particle count</small>	< 120.000 counts/cm ²
APC* > 0.5 µm <small>*Air Particle count</small>	< 100.000 counts/m ³
Recommended cleaning area	approx. 15 m ² , max. 20 m ²
Packaging	5 pieces per vacuum sealed bag 20 bags per carton
